Re: King Systems – Urgent Recall for Sterile Lubricating Jelly in LT-D and LTS-D Kits

To Whom It May Concern:

Tri-anim Health Services was recently advised about a King Systems recall for Sterile Lubricating Jelly, which is included in their LT-D and LTS-D kits. This recall includes Tri-anim Item numbers 477-KLTD2125EA, 477-KLTD213EA, 477-KLTD214EA, 477-KLTD215EA, 477-KLTSD413EA, 477-KLTSD414EA and 477-KLTSD415EA. Our records indicate that you may have purchased one or more of these kits.

This recall includes only product codes and lot numbers listed in King Systems' recall letter, a copy of which is enclosed. If your inventory does not contain these product and lot numbers, your product is not affected.

Should you determine your inventory contains recalled product, please set it aside and contact our customer service department at 800-874-2646 to arrange for return.

If you have any additional questions pertaining to the recall, please contact King Systems' customer service department at 800-642-5464.

We apologize for any inconvenience this action may cause. Thank you for allowing Tri-anim Health Services to be your source for medical supplies and equipment.

Sincerely,

A handwritten signature in cursive script that reads "Trudi LeMaster".
